

## **List of Dyslexia Disabilities Spirits for MD**

**ADD, ADHD, abnormal articulating, & oversensitivity, aboulia, Achalasia, acquired dyslexia, acquired phonological dyslexia, acquired reading disorders, agnosic alexia, Agraphia, akinesia, Alexia, alexia without agraphia, Alexic-Agraphia, alterations in intensity, & in timing of utterance, alterations in vocal pitch, timing, rhythm, and control, ambidexterity, amyotrophic lateral sclerosis, angular gyrus damage, Anticonvulsant meds, Antipsychotic meds, Aortic aneurysm, apathy, Aphasia, articulatory dyspraxia, aspiration pneumonia, astereognosia, Ataxia, ataxic disorders, ataxic dysarthrias, attention deficit disorder, attention deficit hyperactive disorder, attentional dyslexia, auditory dysesthesia, oversensitivity, & processing disorders, ALS,**

**Backwards, Riddle of Dyslexia, Behavior therapy, - Applied Behavior Analysis, behavior therapy treatments, Bell's palsy, Benign paroxysmal positional vertigo of dyslexia, Benign strictures, biologically based disorder, bowel and bladder control loss, brain damage, infection, inflammation, lesions, trauma, or tumor, brain messages scrambled, brain vascular damage, breakdown of articulation, Broca's expressive speech area damage, bulbar palsy,**

**Candida esophagitis, carcinoma, Cerebellar theory of dyslexia, cerebral lesions, cerebral palsy, challenges to Timing, Vocal quality, Pitch, Volume, Breath control, Speed, Strength, Steadiness, Range & Tone, Character amnesia, childhood apraxia of speech, Childhood disintegrative disorder, choking, Chronic infection of brain, chronic neurodegenerative disorder, chronic neurological disorder, clumsy child syndrome, cognitive development disorders in children, Communication loss, or impairment, comprehension of language, slowed or lost, listening, and understanding, concept of holistic, or gestalt principle development impairment, concreteness, confabulations, confuse letters & sounds, Congenital disorders, congenital maladroitness, consonantal misarticulations, counting badly, Cramping of fingers writing, Crohn's disease, Cross-laterality, shift in the preferred hand,**

**D A M P, damage or lesions to occipital and/or parietal lobes, damage to central or peripheral nervous systems, death of nerve cells, Deep dyslexia, defect in understanding of space, deficiency in graphemic parsing, deficit in**

**naming speed hypothesized, deficit in number sense, deficit in phoneme-to-grapheme conversion process, deficits in oral language, degenerative diseases, & illnesses, dehydration, Dejerine syndrome, delayed visual-motor processing, dementia infantilis syndrome, devastating condition for child, & family, Developmental Apraxia, dyslexia, dyspraxia, & verbal dyspraxia, Developmental Co-ordination Disorder, developmental delays in language, social function, and motor skills, developmental target issues of walking, running, climbing, jumping, etc, deviational errors, Difficulties controlling speech organs, making speech sounds, sequencing sounds, Within a word, & Forming words into sentences, Difficulty combining movements in sequence, Difficulty controlling breathing, suppressing salivation, and phonation talking or singing, difficulty mentally estimating size or distance, navigating or mentally turning the map, difficulty reading abstract, analog clocks, & musical notation, Difficulty remembering the next part of sequence, Difficulty with conceptualizing time and judging the passing of time, Difficulty with feeding, Difficulty with mathematic tables, & mental arithmetic, difficulty small tasks with fingers, Diffuse esophageal spasm, digit span impaired, disintegrative psychosis, Dyslexia Movie, Disorder of Attention and Motor Perception, Disorder of written expression, distance, speed, or depth perception issues, distorted integration, hearing, sound, & vowels, disturbance in language processing, dizziness, double deficit theory of dyslexia, Dysacusis, Dysarthria, Dyscalculia, Dyscravia, Dysequilibrium, dysexecutive syndrome, dysfluency, Dysgraphia, Dyslexia, Action, & interventions, dyslexic dysgraphia, Dyslexie, Dysosmia, dysphagia, & lusoria, Dyspraxia, Dysprosody, dysregulation of substance abuse, Dysthymia, dystonia,**

**Easily fatigued, Educational psychology, & therapy, Emotional dysprosody, & trauma, Eosinophilic esophagitis, epilepsy, Esophageal atresia, cancer, dysphagia, esophageal myoma, rings, & webs, Esophageal diverticula, Evolutionary hypothesis of dyslexia, Excessive erasures, executive function problems in letter writing, executive functions disorders, expressive aphasia, Expressive language disorder, & lost skills,**

**Fine motor co-ordination problems, finger Cramping, flaccid dysarthrias, forget instructions, Frequent need of verbal cues, Functional dysphagia,**

**Gastroesophageal reflux, gelastic epilepsy, & seizures, genetic disorders,**

**Gerstmann syndrome, globus, graphomotor output problems of hands, fingers, gross motor coordination issues, Guillain-Barrette syndrome,**

**hallucinations, Hand aching while writing, Handwriting abilities, to spelling and written composition interference, Handwriting slow, hard time writing, translating ideas to writing, & expressing thoughts verbally, Head injury, or trauma, hearing impairment, heightened anxiety, Heller's syndrome, hereditary disorders, hinder control of tongue, throat, lips or lungs, Huntington's disease, hypernasality, hyphenation to read, Hypokinetic dysarthria, Hypothermia, hypotonia,**

**Ideational dyspraxia, linguistic or phonological impairment, illegible handwriting, imageability, Impacted foreign body, impaired orthographic coding, reading of nonwords, long or short term memory, & digit span, impairments in auditory processing, or in speech production, & written language, impairments in intelligibility, audibility, naturalness, and efficiency of vocal communication, impairs respiration, phonation, resonance, prosody, and articulation of speech, implicit memory disorders, impulsive behaviour, In Her Shoes, Inability with financial planning, & budgeting, Inability to concentrate on mentally intensive tasks, inability to conceptualize numbers, inability to control food, or saliva in mouth, inability to express thoughts, inability to learn to write, read non-words, & visualize mentally, inability to understand, remember, or manipulate numbers or number facts, Inattentiveness, incidental memory disorders, Inconsistent forming letters, Inefficient copying, & speed, infarct to left posterior cerebral artery, innate difficulty with arithmetic, Intracranial hypertension, Involvement of intraparietal sulcus, irregular stress patterns,**

**Kanner's classic autism, kinesthetic memory by early training,**

**Laboured letter formation, lack basic grammar skills, spelling skills, fine motor skills, cognitive ability, & coordination, Landau-Kleffner syndrome, Language disorder, Late Onset Tay-Sachs disease, learning disorder, left visual cortex damaged, letter-by-letter dyslexia, lexicality, lifelong neurological condition, Linguistic dysprosody, Lipid storage diseases, Lisp, loose track of time, lose things, loss of ability to write or spell, loss of awareness, loss of semantic memory, Low latent inhibition, over-sensitivity to noise, smell, light, and the inability to tune out & filtering unwanted info,**

**low muscle tone, strength, and endurance, lowered self-efficacy, Lumen, Lyme disease, Lymphadenopathy of cervical lymph nodes, magnocellular dysfunction, or deficit, Magnocellular theory of dyslexia, Malignancy, Malignant neoplasm, malnutrition, math disability, mathematical-numeric deficits, measles virus side effect, medial medullary syndrome, Mediastinal growth, Memory and aging, mild calculation impairment, mild memory deficit, mildly dysfunctional cerebellum, Mind of Her Own, minimal brain dysfunction, minimal constructional apraxia, Mistaken recollection of names, Poor name-face retrieval, Misuse of lines and margins, mix left & right, & directions, mixed dysarthria, Mixed letter cases, Mixed receptive-expressive language disorder, monopitch, motor clumsiness, Motor coordination issues, Motor function disorders, Motor Learning Difficulties, motor memory deficits, Motor skills disorder, or lost, multiple sclerosis, multiple strokes, muscular dystrophy, Myasthenia Gravis,**

**Naming speed deficit theory of dyslexia, neglect dyslexia, Neoplasms, Nervous disorders, nervous system damage, neuro-sensory educational therapy, neurological injury of motor-speech system, neurological problems, Niemann Pick disease, no acquisition of graphemes, letters & numbers, noncancerous benign tumors, amartomas, not Developing a desired writing speed, not distinguish size of numbers, not Establish correct pencil grip, not remembering deadlines, number disabilities, numlexia, occipito-temporal junction damage, Odd body & paper orientations, odynophagia, Oral dysphagia, Oropharyngeal dysphagia, orthographic coding, & loop problems, Orthographies and dyslexia, Orthography,**

**Pain while writing, painful swallowing, panic attacks, paralysis, Paralysis of soft palate, diphtheria in children, and bulbar palsy in adults, parietal lobe alexia, Parkinson's disease, Parkinsonism, partial awareness, Paterson-Kelly syndrome, peer pressure, Perceptual noise exclusion hypothesis, Perceptual visual-noise exclusion hypothesis of dyslexia, Perceptuomotor dysfunction, Periesophagitis, peripheral dyslexia, Peritonsillar abscess, pervasive developmental disorders, phagophobia, Pharyngeal dysphagia, & spasms, Pharyngitis, Phonological deficit theory of dyslexia, Phonological dyslexia, Play skills lost, poor attention span, Poor balance, dexterity, hand eye thought co-ordination, Poor legibility, poor memory, poor muscle tone, poor planning, poor short-term memory, poor spelling, or reading, Poor timing,**

**post-vagotomy, Pott's disease, problems following sequential tasks, problems in orthographic coding, orthographic loop, and graph-motor output, Problems Learning basic movement patterns, Problems chewing foods, & muscles to talk, Problems with spatial awareness, or proprioception, progressive illness, pseudo-foreign dialect syndrome, pseudobulbar palsy, Pseudotumor cerebri, psychogenic dysphagia, pulmonary aspiration, Pure agraphia from frontal lobe lesions, Pure alexia, pure word blindness,**

**Radiotherapy, Rapid auditory processing theory of dyslexia, read by tracing shapes of letters, read by using motor processing, read with whole word method, reading errors in adjectives, possessive adjectives, conjunctions and verbs, reading processes disruption, receptive aphasia, Receptive language skills lost, receptive speech area damage, Referring heavily on vision to write, reflux esophagitis, acid reflux, regression in development, renal failure, Repetitive behavior, & interest patterns loss or impairment, restricted auditory, & visual pathways, restricted tactile modalities, Retropharyngeal abscess, Retrosternal goitre, rewards therapy, Rey-Osterrieth Complex figure, Right cerebral injuries, rote memorization,**

**Scholastic skills slowed, scleroderma, Scotopic sensitivity syndrome, seizures, selective impairment, self-care skills lost, Semantic dyslexia, semantic paralexias reading aloud, semantic reading errors, sensation of lump in throat, Sensorimotor dysfunction, sensory integration, & processing disorders, sensory-induced panic attacks, severe impairments writing to diction and spontaneously, severe reading problems, severe sensory integration dysfunction, severe speech pathology, short attention span, short term memory impaired, silent aspiration, skills attained are lost, Slow language development, slurred speech, Social interaction loss, or impairment, Social skills lost, Some trouble picking up and holding onto simple objects, poor muscle tone & proprioception, Spasms, spastic dysarthrias, spatial dysgraphia, Specific Developmental Disorder of Motor Function, Specific language impairment, Speech and language pathology, Speech disorders, & impairments, spelling dyslexia, Stammering, stuttering, Stomatitis, stroke, struggle sounding words out, Subacute sclerosing panencephalitis, subitizing deficit, surface dyslexia, swallowed corrosives, swallowing problems, symptom-complex, systemic sclerosis,**

**Tay-Sachs, Taylor Complex Figure, Taylor-Osterrieth method, Thinking in**

**Pictures, thrombotic, or embolic stroke, Thyroid malignancy, & swelling, thyroidism, Tight hiatus repairs, Tongue cancer, Tonsillitis, too slow rapid automatized naming of familiar objects or letters, transcranial message mixups, transcranial signals scrambled, transcription disability, traumatic brain injury, Tripping over feet, tuberculosis, Tuberous sclerosis,**

**Unable to grasp and remember math concepts, rules, formulae, and sequences, unable to produce speech, and communicate a message, undernutrition, undersensitivity, unfinished letters, unmotivation, unspecified motor clumsiness, use vision to write,**

**various coping strategies, Verbal dyspraxia, visual errors, & reading, Visual theory of dyslexia, Visual thinking, visual-spatial memory struggle, visuo-spatial disabilities, vocalic misarticulations, voicing substitution dysgraphia,**

**weakness, Wernicke's receptive speech area damage, Whispers in Graveyard, Wilson's disease, word blindness, word flow without pauses, word-form dyslexia, working memory Deficits, disfunction, & problems, writing fatigue,**

**Xerostomia, Xtraordinary People, Zenker's diverticulum,**

**In the Name and Blood of the Lord Jesus Christ, I bind up each and every demon left, I individually chain, cage, bag and box them. I put them in caves with rocks over the caves with the Light of the Lord shining bright and the angels of the Lord reading Scriptures and praise the Lord continually. I cover us all with the Blood of Jesus. I call upon God's Holy Spirit to fill everybody full to overflowing and to keep chasing out the demons and to restore God's people. In Jesus' Name, I loose legions of the spirits of the Lord, life, health, healing, restoration, wellbeing, sound mind, and a good night's sleep.**

**We thank You Lord Jesus for everything You have done. We give you all the glory and honour, and blessings and praise. In Jesus' Mighty Name and by His Blood. Amen.**
