

List of Virus Spirits for MD

AIDS, Acquired immuno deficiency syndrome, acute viral nasopharyngitis, Adenovirus infection, Africa swine fever, Alphacoronavirus, alpha-cvArgentine hemorrhagic fever, by Junin virus, animal to human coronavirus diseases, Arbovirus encephalitis, arteriveridae, Ascariasis, by Ascaris lumbricoides, Astrovirus infection, by Astroviridae, Australian bat lyssavirus, avian infectious bronchitis, Avian influenza,

Bacillus cereus infection, Balantidiasis, by Balantidium coli, Bat-borne viruses, Betacoronavirus, betaretroviruses, Bioterrorism, Bird Flu, BK virus infection, Black piedra, by Piedraia hortae, Boca virus Infection, Bolivian hemorrhagic fever, by Machupo virus, Bombali ebolavirus, bovine coronavirus, Brazilian hemorrhagic fever, by Sabia, Bunyaviridae,

Calici virus infection, Noro virus and Sapo virus, by Caliciviridae family, Chandipura vesiculovirus, Chagas Disease American trypanosomiasis, by Trypanosoma cruzi, Chancroid Haemophilus ducreyi, Chickenpox, shingles, by Varicella zoster virus, Cholera, by Vibrio colerae, Chromoblastomycosis, by Fonsecaea pedrosoi, Clonorchiasis, by Clonorchis sinensis, Clostridium difficile infection, by C-difficile, Coccidioidomycosis, by Coccidioides immitis & posadasii, Colorado tick fever, & Colorado tick virus, Common cold, Acute viral rhinopharyngitis, & coryza, by rhinoviruses, Coronaviridae, Coronavirinae, coronaviruses, Covid 19 by Wuhan coronavirus, Coxsackie Virus, Creutzfeldt-Jakob disease, a rare Brain disease by C J D pri-on, Crimean-Congo hemorrhagic fever, by C C H F virus, Cuevavirus, Cutaneous larva migrans, by Ancylostoma braziliense, parasites, Cyclosporiasis, by Cyclospora cayetanensis, Cysticercosis, by Taenia solium, Cytomegalo virus infection, Cytomegalovirus esophagitis, Cytomegalovirus retinitis,

Deltacoronavirus, Denguey fever, by Denguey, & Flavi viruses, diarrhea, Dientamoebiasis, by Dientamoeba fragilis, Diphyllbothriasis, by Diphyllbothrium, DNA Viruses, Dracunculiasis Dracunculus medinensis, Duvenhage lyssavirus,

Ebola hemorrhagic fever, by Ebola coronavirus, Ebola virus disease, Encephalitis, enteritis, Enterobiasis, & Pinworm infection, by Enterobius

vermicularis, Enterovirus infection, by Enterovirus genus, epidemic murine illness, Epidemic typhus, by Rickettsia prowazekii, epizootic catarrhal enteritis, Epstein-Barr Virus Infectious Mononucleosis (Mono), European bat lyssaviruses, Erythema infectiosum, & Fifth disease, by Parvovirus B19, Exanthema subitum, by Human herpesviruses 6 & 7,

Fasciolopsiasis, by Fasciolopsis buski, Fasciolosis, by Fasciola hepatica & gigantica, Fatal familial insomnia, by FFI prion, Feline coronavirus, feline enteric coronavirus, feline infectious peritonitis, Ferret enteric coronavirus, ferret systemic coronavirus, Filariasis, by Filarioidea superfamily, Filoviruses, Free-living amoebic infection,

Gammacoronavirus, gammaretrovirus, Gangrene, Gas gangrene, Gastroenteritis, Clostridial myonecrosis, Geotrichosis, by Geotrichum candidum, Gerstmann-Straussler-Scheinker syndrome, by GSS prion, Giardiasis, by Giardia intestinalis, Glanders, by Burkholderia mallei, Gnathostomiasis, by Gnathostoma spinigerum, & hispidum, Gonorrhea, by Neisseria gonorrhoeae, Guinea Worm Disease,

Haemophilus influenzae, Hand foot and mouth disease, by Enteroviruses, Coxsackievirus A, & Enterovirus 71, Hantavirus Pulmonary Syndrome, from mice, by Sin Nombre virus, Hemorrhagic fever with renal syndrome, by Bunyaviridae, henipaviruses, Hendra virus, Hepadnaviruses, Herpangina, Hepatitis A B C D & E, Herpes of the eye by HSV, Herpes simplex, Herpesviral meningitis, Histoplasmosis, by Histoplasma capsulatum, HIV AIDS, Hookworm infection, by Ancylostoma duodenale, and Necator americanus, Human bocavirus, human coronavirus diseases, Human granulocytic anaplasmosis, Anaplasma phagocytophilum, Human metapneumovirus, Human orthopneumovirus, Human papilloma virus, Human parainfluenza virus, Human polyomaviruses, Hymenolepiasis, by Hymenolepis nana, & diminuta,

Incertae sedis, infect gastrointestinal tract, infectious bronchitis virus, Influenza and the common flu, by Orthomyxoviridae, & Interstitial Cystitis, Irkut virus, Isosporiasis, by Isospora belli,

Kawasaki disease, Keratitis, Khujand virus, Killer Cold Virus, by Adenovirus, Kingella kingae infection, Kuru prion,

Lagos bat lyssavirus, Lassa fever, by Lassa virus, Lleida bat lyssavirus, Lloviu virus, Lymphatic filariasis, Elephantiasis, by Wuchereria bancrofti, & Brugia malayi, Lymphocytic choriomeningitis, lyssaviruses,

Mad Cow Disease, or B S E, Magboi virus, Mapuera virus, Marburg hemorrhagic fever, by Marburg virus, Marburg virus disease, Measles, Red, & german measles, by Measles virus, meningitis, Menangle virus, Mengla virus, Metagonimiasis, by Metagonimus yokagawai, Meningococemia, Mesoniveridae, Microcephaly, Microsporidiosis, by Microsporidia phylum, Molluscum contagiosum, Monkeypox, mononucleosis, Mouse hepatitis virus, M R S A coronavirus Infection, Mouyassué virus, Mucormycosis, Mumps, by Mumps virus, Myiasis, by parasitic dipterous fly larvae, Myelitis, Myocarditis,

Naegleria Infection, N D M-1, Necrotizing Fasciitis, Neutropenia, New Variant Creutzfeldt-Jakob disease, Nidovirales, Nocardiosis, by Nocardia asteroides, Noro virus, Norwalk virus,

Oncovirus, Onchocerciasis, or River blindness, by Onchocerca volvulus, Orthocoronavirinae, orthorubulavirus, Orthomyxoviridae, Osteomyelitis,

Pancreatitis, Paracoccidioidomycosis, or South American blastomycosis, by Paracoccidioides brasiliensis, Paragonimiasis, by Paragonimus westermani, Paramyxoviruses, Parainfluenza, Pediculosis capitis, or Head lice, by Pediculus humanus capitis, Pediculosis corporis, or Body lice, by Pediculus humanus corporis, Pediculosis pubis, Pericarditis, Pubic lice, or Crab lice, by Phthirus pubis, Pelvic inflammatory disease, Plague, by Yersinia pestis, Pneumocystis pneumonia, by Pneumocystis jirovecii, Pneumonia viral, Polio, Poliomyelitis, and Post-polio syndrome, by Polio virus, Primary amoebic meningoencephalitis, by Naegleria fowleri, problematica, Progressive multifocal leukoencephalopathy, by J C virus, Rabies virus, Ramsay Hunt syndromes, Ravn virus, Recreational Water Illnesses, by Respiratory syncytial virus, reticuloendotheliosis viruses, Retroviruses, Rhabdoviridae, Rheumatic Fever, Rhinosporidiosis, by Rhinosporidium seeberi, Rhino virus, RNA viruses, Roniviridae, Rota virus, Rubella virus, SARS, or Severe Acute Respiratory Syndrome, by SARS corona virus, SARS-CoV, SARS-CoV-2, Scabies, by Sarcoptes scabiei, Sepsis, Shingles, or Herpes zoster, by Varicella zoster virus, Sialodacryoadenitis virus, Smallpox, or Variola, by Variola major or minor, Sosuga pararubulavirus, spontaneous mutations of

coronavirus, Sporotrichosis, by *Sporothrix schenckii*, Subacute sclerosing panencephalitis by MeV, swine flu, swine acute diarrhea syndrome coronavirus, Swollen Lymph Nodes, Syphilis, by *Treponema pallidum*, targets the respiratory tract and urogenital tract, Tioman virus, Toxic Shock Syndrome, Toxocariasis, Ocular or Larva Migrans, *Toxocara canis*, or *Toxocara cati*, Toxoplasmosis, by *Toxoplasma gondii*, transmissible gastroenteritis coronavirus, Trichinellosis, by *Trichinella spiralis*, Trichomoniasis, by *Trichomonas vaginalis*, Trichuriasis, or Whipworm infection, by *Trichuris trichiura*, Tropical spastic paraparesis, Tukoko virus, Tularemia *Francisella tularensis*, Typhus, *Ureaplasma urealyticum* infection, Valley Fever, Variant Creutzfeldt-Jakob Disease, Viral Hemorrhagic Fever, viral pneumonia, Venezuelan equine encephalitis, Venezuelan hemorrhagic fever, by Guanarito virus, Viral pneumonia, viral systemic diseases, West Nile Encephalitis, or West Nile Fever, by West Nile virus, White piedra, or Tinea blanca, by *Trichosporon beigeli*, Yaws, *Yersinia pseudo tuberculosis* infection, Yersiniosis, by *Yersinia enterocolitica*, Yellow fever, Zoonotic coronaviruses, Zoonotic viruses, Zygomycosis, Mucorales order, Mucormycosis, & Entomophthorales order, Entomophthoromycosis,

Cancers from Viruses,

Adrenal tumor, by B K, & simian 40 viruses, Adult T-cell leukemia/lymphoma by HTLV-I, Anal cancer, Cervical cancer, Penile cancer, Vulvar cancer, Vaginal cancer, and Oropharyngeal cancer by human papilloma viruses, Bladder cancer, by *Schistosoma* helminths, Brain tumor, or Glioblastoma multiforme by cytomegalovirus, B K, J C, & simian 40 viruses, Breast cancer by mouse mammary tumor, Epstein-Barr, & human papilloma viruses, Carcinoid tumors by enterovirus, Cervical cancer, by human papilloma virus, Colorectal cancer by human papilloma virus, helminth *Schistosoma japonicum*, & J C virus, Gallbladder cancer, by *Salmonella typhi*, Hepatocellular carcinoma and Splenic marginal zone lymphoma by HCV, Hodgkin's lymphoma by Epstein-

Barr virus, hepatitis C, & H I V, Kaposi's Sarcoma, by Kaposi's sarcoma herpes virus and H I V, Hepatocellular carcinoma and Splenic marginal zone lymphoma by HBV or HCV

Liver cancer, Hepatocellular carcinoma, by hepatitis B & C viruses, & helminth Schistosoma japonicum, Lung cancer by Chlamydia pneumoniae, human papilloma virus, & Merkel cell polyoma virus, Leukemia, Adult T-cell leukemia, by human T-cell leukemia virus-1,

Merkel-cell carcinoma by MCPyV, Mesothelioma by simian virus 40, & asbestos exposure, Nasopharyngeal carcinoma, Burkitt's lymphoma, Hodgkin lymphoma, Follicular dendritic cell sarcoma and Extranodal NK/T-cell lymphoma, nasal type by Epstein-Barr virus, Non-Hodgkin lymphoma by H I V and simian virus 40, Oropharyngeal cancer by human papilloma viruses, Ovarian cancer by mumps virus, Pancreatic cancer by hepatitis B Virus and Helicobacter pylori, Prostate cancer by xenotropic murine leukemia virus-related virus, & B K virus,

Skin neoplasm by human papilloma viruses, Squamous cell carcinoma by human papilloma virus, Stomach cancer by Helicobacter pylori, Thyroid cancer by simian virus 40,

human diseases associated with infectious viruses,

Alzheimer's disease, by Herpes simplex virus 1, entering the brain, & the protozoan Toxoplasma gondii, Amyotrophic lateral sclerosis, a motor neuron disease, by echo virus, an entero virus infection of the central nervous system, & retro virus activity from a human endogenous, or exogenous retro viruses, Anxiety, by cytomegalo virus, Asthma, by rhino virus, & human respiratory syncytial virus, Attention deficit hyperactivity disorder, & learning disorders, by H I V and entero virus 71,

Febrile seizures due to human herpes virus 6 and influenza A are a risk factor for Ay D H D, Viral infections during pregnancy at birth and in early childhood are a risk factor for Ay D H D, Autism, & prenatal maternal infection with rubella virus, or cytomegalo virus, Autoimmune diseases, by entero viruses, Coxsackie B, Epstein-Barr virus, cytomegalo virus, parvo virus B19, & H I V, Autoimmune thyroid disease, by Epstein-Barr virus,

Bipolar disorder, or manic depression, by borna virus, & infection with

Borrelia species bacteria, Chronic fatigue syndrome, or myalgic encephalomyelitis, by entero viruses, Coxsackie B virus, human herpes viruses 6 & 7, & parvo virus B19, Chronic obstructive pulmonary disease, or C O P D, chronic bronchitis and emphysema, by Epstein-Barr virus, Crohn's disease, by Mycobacterium avium subspecies paratuberculosis, & noro virus CR6 strain by a virus-gene-toxin interaction, Coronary heart disease, by herpes simplex virus 1,

Dementia, by viruses herpes simplex 1&2, cytomegalo virus, West Nile virus, borna virus, and H I V & the helminth Taenia solium, pork tapeworm, Depression, by cytomegalo virus, West Nile virus, & Toxoplasma gondii infection, Major depressive disorder, by borna virus,

Seasonal affective disorder, by Epstein-Barr virus, Diabetes mellitus type 1, by viral species from the entero virus genus, Coxsackie B virus, & mumps virus, coxsackie virus B may destroy the insulin-producing beta-cells in the pancreas, by autoantibody damage to these beta-cells, and echo virus 4 as an environmental trigger for type 1 diabetes, Diabetes mellitus type 2, by cytomegalo virus, hepatitis C virus, entero viruses, & Ljungan virus, Metabolic syndrome for diabetes mellitus type 2, Dilated cardiomyopathy, by entero viruses, as Coxsackie B virus,

Epilepsy, by human herpes virus 6, Guillain-Barray syndrome, by cytomegalo virus, & entero virus, Irritable bowel syndrome, by pathogenic strains of protozoan parasite Blastocystis hominis, Giardia lamblia protozoal infection, & protozoan Dientamoeba fragilis, Lupus, by viruses, parvo virus B19, Epstein-Barr virus, & cytomegalo virus, Metabolic syndrome, by cytomegalo virus and herpes simplex virus 1, Multiple sclerosis, dee-myelinating autoimmune disease, by Epstein-Barr virus, human herpes virus 6, & varicella zoster virus, Myocardial infarction or heart attack, by cytomegalo virus, & Coxsackie B virus,

Obesity, by adeno viruses 5, 36 & 37, human adeno viruses, Ay D-36 Ay D-37 and Ay D-5, Parkinson's disease, by influenza A virus, & the protozoan parasite Toxoplasma gondii, Rheumatoid arthritis, by parvo virus B19, Schizophrenia, from neonatal infection by Coxsackie B virus, an entero virus, Prenatal Influenza virus, & borna virus, Stroke, by varicella zoster virus, & Histoplasma fungus, Thromboangiitis obliterans, by Ricketts-sia, Vasculitis,

by H I V, parvo virus B19, hepatitis B & C viruses,

Medicines for Viruses, Drug resistance, multi-drug resistance, Acyclovere, for Varicella zoster virus, Adenoviridae, for Adeno virus, Herpesviridae, for Herpes simplex 1 & 2, Varicella-zoster, Epstein-barr virus, Human cytomegalo virus, & Human herpes virus 8, Papillomaviridae, for Human papilloma virus, Polyomaviridae, for B K, & JC viruses, Poxviridae, for Smallpox, Hepadnaviridae, for Hepatitis B, Parvoviridae, for Human boca virus, & Parvo virus B19, Astroviridae, for Human astro virus, Caliciviridae, for Norwalk virus, Picornaviridae, for coxsackie virus hepatitis A, polio virus, & rhino virus, Coronaviridae, for Severe acute respiratory syndrome virus, Flaviviridae, for Hepatitis C, yellow fever, denguey, & West Nile viruses, Togaviridae, for Rubella virus, Retroviridae, for Human immunodeficiency virus or H I V, Orthomyxoviridae, for Influenza virus,

Arenaviridae, for Guanarito, Junin, Lassa, Machupo, & Sabia viruses, Bunyaviridae, for Crimean-Congo hemorrhagic fever virus, Filoviridae, for Ebola, & Marburg viruses, Paramyxoviridae, for Measles, Mumps, Parainfluenza, Respiratory syncytial viruses, & Human metapneumo virus, Rhabdoviridae, for Rabies virus, Reoviridae, for Rota virus.

In the Name and Blood of the Lord Jesus Christ, I bind up each and every demon left, I individually chain, cage, bag and box them. I put them in caves with rocks over the caves with the Light of the Lord shining bright and the angels of the Lord reading Scriptures and praise the Lord continually. I cover us all with the Blood of Jesus. I call upon God's Holy Spirit to fill everybody full to overflowing and to keep chasing out the demons and to restore God's people. In Jesus' Name, I loose legions of the spirits of the Lord, life, health, healing, restoration, wellbeing, sound mind, and a good night's sleep.

We thank You Lord Jesus for everything You have done. We give you all the glory and honour, and blessings and praise. In Jesus' Mighty Name and by His Blood. Amen.

**Pastor T. John Franklin
