

List of Kidney Disorders Spirits for MD

Abderhalden–Kaufmann–Lignac syndrome, abnormal kidney function, absence of kidneys, Acute infectious interstitial nephritis, Acute kidney injury, acute nephritic syndrome, Acute proliferative glomerulonephritis, Acute pyelitis, Acute pyelonephritis, Acute renal failure, with acute cortical, medullary, or tubular necrosis, acute renal impairment, Acute tubular necrosis, Acute tubulo-interstitial nephritis, Acute uric acid nephropathy, adalat, Adenine phosphoribosyl transferase deficiency, Adipose capsule, Adipsia, Afferent arterioles, albumin in urine, allergy to xtraneal, allo-graft failure, Alport syndrome, aluminium hydroxide, & toxicity, aminoaciduria, amlodipine, Analbuminaemia, Analgesic nephropathy, Angiomyolipomas, anti rejection meds, aperistalsis of distal ureter, Arcuate arteries, or veins, Artificial kidney, Ask-Upmark kidney, Atrophy, autosomal dominant genetic disorder, polycystic kidney, & disease, Autosomal recessive polycystic kidney, & disease, Azotaemic osteodystrophy, azotemia,

Balkan, & endemic nephropathy, Bardoxolone methyl, Bartter syndrome, Bellini duct carcinoma, benign disorders - nephro sclerosis, renal neoplasms, & tumour, Biaxin, bilateral disease, & Renal agenesis, Bisalbuminemia, blood transfusion & spirit transfers, Blood urea nitrogen, BOSC, Bowman's capsule, Bowman-Heidenhain hypothesis, Branchioto-renal syndrome, Brewer infarcts, Bright's disease, Brodel's bloodless line, BUN-to-cre-attinine ratio,

Cacchi–Ricci disease, Calciphylaxis, Calcium acetate, & magnesium carbonate, Calcium carbonate, Calcium nephrolithiasis, Calcium oxalate, calculous pyelonephritis, or with hydronephrosis, Calculus in urethra, &/or of kidney, & without hydronephrosis, cancer, carcinoid tumor, Cardiorenal syndrome, cardizem, Celiac sprue, centran line complications, CFHR nephropathy, changing liver operations, childhood kidney failure, Cholesterol embolism, ckoristoma, chronic infection, chronic infectious interstitial nephritis, chronic kidney conditions, chronic kidney disease, chronic kidney stages, chronic kidney pain, chronic kidney failure, Chronic obstructive pyelonephritis, Chronic pyelitis, Chronic renal failure, Chronic uraemia, Chronic tubulo-interstitial nephritis, ciliopathic genetic disorder, ciliopathy, Cimino fistula, Clarithromycin, & Calcium Channel blockers damage, Clear

cell papillary renal cell carcinoma, Clear cell sarcoma, Clearance of medicine, & kidney damage, cold after dialysis, Collecting duct system, complete kidney failure, compression of ureter, Conditions with infection, Congenital megaureter, Congenital mesoblastic nephroma, Congenital nephrotic syndrome, congenital obstructive defects of renal pelvis & ureter, Connecting tube-you'll, Conorenal syndrome, Continuous erythropoietin receptor activator, contracted kidney, & with hypertension, Contrast-induced nephropathy, Cortical lob-you'll, Cortical necrosis acute, & renal, Costovertebral angle tenderness, Council on Renal Nutrition, Counter current exchange, Creatinine high, crescentic glomerulonephritis, Crossed dystopia, & fused ectopia, Crush syndrome, cryoglobulinemia, CVA tenderness, CVC line complications, Cyst multiple, Cyst solitary, Cystatin C, cystic diseases, or genetic disorders, Cystic kidney disease, & congenital disorders, Cystic nephroma, cystica, Cystine storage disease,

damage from medicines, damaged kidney cells, Danubian endemic familial nephropathy, Darbepoetin alfa, Dent diseases, dermatitis herpetiformis, Descending limb of loop of Henle, Diabetes insipidus, Diabetes meletis, Diabetic nephropathy, Dialysis adequacy, Dialysis catheter, Dialysis, & Transplant Associations, Dialysis dis-equilibrium syndrome, Dialysis related neuropathy, diuretics, diethylnitrosamine, Diffuse proliferative nephritis, diffuse sclerosing glomerulonephritis, dilated ureter, dilation, diltiazem, Disorder from impaired renal tubular function, Disorders of kidney & ureter in schistosomiasis bilharziasis, tuberculosis, infectious, or parasitic diseases, Disorders from impaired renal tubular function, Distal convoluted tube-you'll, Distal renal tubular acidosis, DMSA scan, DRIL, Drug & heavy-metal-induced tubulo-interstitial, & tubular conditions, drug-drug interactions, Duct of Bellini, duplex kidney, Duplicated ureter, Dysencephalia Splanchnocystica, Dysplastic kidneys,

EAST syndrome, ectopic kidney, Effective renal plasma flow, Efferent arteriole, encephalopathy, End stage kidney disease, in allo-graft failure, on dialysis, without dialysis, or transplant, End Stage Renal Disease, endema, endocrine gland disorders on top of kidney, enlarged kidney, Epithelial-mesenchymal transition, Epoetin alfa, Epoetin beta, erythromycin, Erythropoiesis-stimulating agents, Erythropoietin, excess calcium in urine, excess protein in urine, excess salt in urine, excess sugar in urine, extra-

renal symptoms, Extraction ratio, extrarenal uraemia,

Familial dysalbuminemic hyperthyroxinemia, Familial renal amyloidosis, Familial renal disease, Fanconi syndrome, fat inside kidneys reducing function, Fechtner syndrome, felodipine, fibrite meds reduce kidney function, fibrosis of cortico-medullary junction, Filtration fraction, Filtration rate low, Filtration with slits, fluid-filled cysts, Focal proliferative nephritis, Focal segmental glomerulo-sclerosis, Forced diuresis, forming cysts at cortico-medullary junction, Fractional sodium excretion, Fraley syndrome, Free water clearance, frequent kidney stones, fused kidneys, Fusion abnormalities,

Galloway Mowat syndrome, gene mutations, genetic kidney disorders, genitourinary system disorders, Geriatric nephrology, Gitelman syndrome, Glomerular basement membrane, Glomerular diseases, Glomerular disorders, Glomerular filtration rate, glomerular nephritis, Glomerulonephritis, Glomerulonephros, glomerulopathy, Glomerulo-sclerosis, Glomerulus, Glucagon hormone forces liver to release intracellular stores of glucose, or Glycogen, Goldblatt kidney, Goodpasture's syndrome, gout, Gruber Syndrome,

haemolytic-uraemic syndrome, haemorrhage, Haff disease, hamartomas, Hematologic Diseases, hematuria, Hemo-dialysis, & product, Hemo-filtration, hemoglobin low, hemoglobin loss in dializer, hemo-globinuria, hemolytic uremic syndrome, Hemo-perfusion, Henoch-Schoenlein purpura, hepatitis A, B & C, hepatorenal syndrome, High anion gap metabolic acidosis, high blood pressure, High creatin level, high euristic acid, high salt content, Hilum of kidney, HIV-associated nephropathy, holding water, Home hemo-dialysis, Home PD dialysis, Horseshoe kidney, Hydronephrosis, Hydronephrosis with ureteral stricture, Hydronephrosis with ureteropelvic junction obstruction, Hydronephrosis with renal calculous obstruction, Hydronephrosis with ureteral calculous obstruction, Hydroureter, hypercalciuria, Hyperkalemia, Hypermagnesemia, hyperphosphaturia, Hypertension, Hypertensive nephropathy, Hypertensive nephrosclerosis, Hypertensive arteriolar, Hypertensive arteriosclerotic, Hypertrophy, hypoalbuminemia, Hypokalemia, Hypomagnesemia, Hypomagnesemia with secondary hypocalcemia, hypoplasia, hypoplastic kidneys,

Icodextrin, idiopathic hypercalciuria, idiopathic low-molecular-weight proteinuria, IgA nephropathy, Iminoglycinuria, Immersion diuresis, impaired kidney function, impaired renal tubular function, Infection of kidney, Infection of ureter, infections, inflammation of glomeruli, inflammation of small blood vessels, Interlobar, arteries, & veins, interlobular arteries, & veins, interstitial fibrosis, & tubular atrophy, Interstitial nephritis, Intradialytic parenteral nutrition, Intraglomerular mesangial cell, Ischaemia, Ischaemia infarction, isolated renal hypoplasia, isopten,

Japanese low-molecular-weight proteinuria, Juxta-glomerular apparatus, Juxta-glomerular cell, Juxta-glomerular cell tumor, Juxtamedullary nephron,

Kaliuresis, Kidney cancer, Kidney tumour, Kidney damage with mild, moderately, or severely decreased GFR, Kidney damage with normal or increased GFR, Kidney Defects, Kidney diseases, Kidney disorders, kidney Dialysis, & machine, kidney fails to excrete urea nitrogen in urine, kidney failure, & with hypertension, kidney HemoDialysis, & machine, kidney PD Dialysis, & machine, kidney hypodysplasia, kidney mal-development, kidney malfunction, Kidney organizations, kidney Replacement Therapy, kidney transplant, kidney stones, kidney formers, Kidney threshold, Kidney not excrete excess salt, Kidney not excrete excess glucose with water, Kidney not excrete excess protein, Kidney not excrete excess solutes with water, kidney-lung-heart blood pressure control disorders, kidney-specific chloride antiporter, kidney-specific proton antiporter, kidneys not develop, kidneys not clean blood properly, kidneys spill excess protein into urine, kidneys spill excess salt into urine, kidneys spill excess sugar into urine, Kinking & stricture of ureter without hydronephrosis, Kokko & Rector Model,

lanthanum carbonate, Late syphilis of kidney, Lightwood–Albright syndrome, lipoid nephrosis, Lloyd's sign, Loin pain hematuria syndrome, Loop of Henle, loss of blood nutrients in dialysis, low filtration rate, low-molecular-weight proteinuria, low potassium in blood from diuretics, low mineral levels in blood from diuretics, Lupus nephritis,

Macula densa, Major calyx, malaria, Malarial nephropathy, malformation, malignant cancer, malposition, massive enlargement, Meckel syndrome, Meckel–Gruber Syndrome, medicine interferes with renin cycle, medicine side effects, meds interfere with renin kidney blood pressure control cycle,

Medullary cystic kidney disease, Medullary papillary necrosis, acute, & renal, Medullary ray, & sponge kidney, Medullipin, Megaloureter, Megaureter, Membrano proliferative, membrano proliferative glomerulonephritis, Mesangial proliferative glomerulonephritis, Membranous glomerulonephritis, Mesangial cells in renal glomerulus, Mesangium, mesenchymal tumour, Messo-American nephropathy, Mesoblastic nephroma, Mesonephros, metabolic disorders to Renal osteodystrophy, Metanephric adenoma, Metastatic urothelial carcinoma, Methoxy polyethylene glycol-epoetin beta, Microangiopathic hemolytic anemia, microscopic cysts, Milk-alkali syndrome, MILLER banding, Milligram per cent, Minimal change disease, Minimal mesangial glomerulonephritis, Minor calyx, mullerian duct abnormalities, motor nerve damage, Multicystic dysplastic kidney, multiple cysts, muscles in hand shrinking in Dialysis, Myeloma cast nephropathy,

Natriuresis, nephritic syndrome, nephritis, Nephrocalcinosis, Nephrogenic diabetes insipidus, & systemic fibrosis, Nephrolithiasis, Nephrologists, Nephrology, Nephromegaly, Nephron, & without juxta-glomerular apparatus, Nephronophthisis, nephropathy, & renal disease with morphological lesion, Nephropathy induced by drugs, Nephropathy induced by medicaments, Nephropathy induced by biological substances, Nephropathy induced by heavy metals, Nephropathy induced by low Vitamine D, Nephroptosis, Nephrosis, nephrotic syndrome, Nephrotome, Nephro toxicity, Net acid excretion, nifedipine, Nil Lesions, Nil Disease, Nocturnal dialysis, non-inflammatory disease, Non-modulating essential hypertension, Nonobstructive chronic pyelonephritis, Nonobstructive reflux-associated chronic pyelonephritis, Nonproliferative, Normal anion gap acidosis, norvasc, Nutcracker syndrome,

obstruction, Obstructive, & reflux uropathy, obstructive pyelonephritis, Obstructive uropathy, Obstructive uropathy with infection, oligohydramnios, oliguria, Oncocytoma, Onconeurology, Opisthonephros, Orellanine, organ donation, organ doner, organ transplant and transferred spirits, Orifice of ureter, Osmol gap, Osmolarity gradient, Osmotic diuresis, Osmotic nephrosis, osteomalacia, oversized kidneys,

PAH clearance, Papillonephritis, Paxto mutations, PEComa, pediatric kidney tumors, Pelvic kidney, pelviureteric junction, pentoxifylline, & abdomem bloating, Percutaneous nephrostomy, Peritoneal dialysis,

equilibration test, Peritubular capillaries, perivascular epithelioid cells, Phoslo, Phosphate binders, & nephropathy, Phosphate-losing tubular disorders, Plasma renin activity, plendil, Podocyte, Polkissen cells, Polycystic kidney disease, Polycystic kidney syndromes, poor filtration rate, Post-infectious, post-streptococcal glomerulonephritis, postpartumrenal failure, Postprocedural renal failure, Potter sequence, prerenal uraemia, preureteric vena cava, Primary hyperoxaluria, Proliferative, Pronephros, Prostatic urethra, protein in urine, proteinuria, Proximal convoluted tubeule, & renal tubular acidosis, Pseudohypoaldosteronism, psychotropic meds kidney damage, Pump leak model, pyelitis, pyelonephritis, Pyelonephritis chronic with anomaly, kinking, obstruction, stricture, or vesicoureteral reflux, pyeloureteric junction, Pyeloureteritis, Pyonephrosis,

Radio-iodinated serum albumin, Rapidly progressive glomerulonephritis, Reabsorption, Rebound diuresis, Reflux nephropathy, reflux uropathy, reflux-associated pyelonephritis, rejection of transplanted organ, removal of kidney, ren arcuatus, Renal & kidney disorders, Renal agenesis, & Potter sequence, Papillorenal syndrome, Renal & perinephric abscess, Renal artery embolism, Renal obstruction, Renal occlusion, Renal stenosis, Renal thrombosis, Renal extrarenal part atherosclerosis, Renal congenital stenosis, Renal blood flow impaired, Renal branches of vagus nerve, Renal calculus, Renal cancer, Renal capsule, Renal cell carcinoma, Renal chloride reabsorption, Renal circulation, Renal clearance ratio, Renal colic, Renal column, Renal corpuscle, Renal cortex, Renal cortical necrosis, renal cystic diseases, renal cystic dysplasia, Renal cysts, Renal dialysis, Renal dysplasia, Renal ectopia, Renal failure, Renal fascia, Renal fusion anomaly, renal disease acute or chronic, renal failure complicating abortion, ectopic, or molar pregnancy, renal failure during or following labour & delivery, or postprocedural, Renal glucose, oligopeptide, protein & sodium reabsorption, Renal infarct, Renal insufficiency, Renal ischemia, Renal lobe, Renal medulla, Renal medullary carcinoma, Renal medullary fibroma, Renal oncocytoma, Renal osteodystrophy, Renal papilla, Renal papillary necrosis, Renal parenchyma, Renal pelvic cancer, Renal pelvis, Renal physiology, Renal plexus, Renal pyramids, Renal replacement therapy, Renal retinitis, Renal rickets, or short stature, Renal sclerosis, Renal segmental hypoplasia, Renal sinus, Renal stone, Renal threshold, Renal Support Network,

Renal tubular acidosis, & damage, Renal tubulo-interstitial diseases, Renal tubulo-interstitial disorders, from brucellosis, diphtheria, salmonella infection, sepsis, or toxoplasmosis, Renal tubulo-interstitial disorders in blood diseases, & disorders involving the immune mechanism, Renal tubulo-interstitial disorders in cystinosis, glycogen storage disease, leukaemia, lymphoma, & multiple myeloma, & Wilson disease, Renal tubulo-interstitial disorders in infectious, metabolic, neoplastic, & parasitic diseases, Renal tubulo-interstitial disorders in mixed cryoglobulinaemia, & sarcoidosis, Renal tubulo-interstitial disorders in sicca syndrome Sjogren, & systemic lupus erythematosus, or connective tissue disorders, Renal tubulo-interstitial disorders in transplant rejection, Renal urea handling, Renal vein thrombosis, Renal coloboma syndrome, Renin, Reninoma, Renovascular hypertension, retrocaval ureter, retroperitoneal haemorrhage, Rhabdoid tumor, Rhabdomyolysis, rickets,

SSRI meds reduce kidney function, Secondary hyper-parathyroidism of renal origin, Secondary hypertension, Segmental arteries, Selective reabsorption, sensory nerve damage, serious malfunction of kidneys, Serpentine fibula-polycystic kidney syndrome, sevelamer, Shunt nephritis, Sick cell nephropathy, sickle-cell disease, Sinistrin, skin layers separate, & peel off easily from holding water, Skip lesion, S L E, slowed kidney function, small & underdeveloped kidneys, Small kidney, bilateral, or unilateral, smaller kidneys, Societies of Nephrology, Renal Nutrition, Metabolism, & Transplantation, Solvent drag, sponge kidney, Spongy urethra, Staghorn calculus, Standardized Kt/V, Statin drugs interaction damage, Stellate veins, Step-by-step hemodialysis, Stone in kidney, Straight venules, super kidney, Supernumerary kidney, systemic disorders,

Tetracapsuloides bryosalmonae, The NephCure Foundation, Thick or thin ascending limb of loop of Henle, Thin basement membrane disease, Thin segment, thrombotic thrombocytopenic purpura, tissue-damaging calcinosis, Toxic nephropathy, toxemia, Tram track medicine, Trans-tubular potassium gradient, transitional cell carcinoma, Transplant glomerulopathy, Treatment & prognosis of renal cell carcinoma, trisomy, tuberous sclerosis, Tubular fluid, Tubular necrosis, acute & renal, tubular proteinuria, Tubulo-interstitial nephritis, acute, or chronic, Tubuloglomerular feedback, Tubulopathy, Tumoral calcinosis, tumors, Turner Syndrome,

Ultrafiltration, underdevelopment, underdialized, unilateral "S" shaped, or long kidney, unilateral Renal agenesis, unregulated blood pressure, uraemia of newborn, Uraemic apoplexia, Uraemic dementia, Uraemic neuropathy, Uraemic paralysis, Uraemic pericarditis, Urea reduction ratio, Urea transporter, uremia, Uremic fetor, Uremic toxin, uretal cancer, ureter disorders, Ureteral cancer, Ureteral ectopia, Ureteral neoplasm, ureteric kinking & stricture with, or without hydronephrosis, Ureteric stone, Ureteritis, Ureterocele, Urinalysis, Urinary calculus, & in schistosomiasis bilharziasis, urinary tract infection, urinary tract obstruction, Urine sodium, Urodilatin, Urolithiasis, Uroscopy, urothelial cell carcinoma,

Vasa recta, Vascular access steal syndrome, vasculitis, Vasopressin, verapamil, vesicoureteral reflux, with scarring, with uropathy, Vesicoureteric reflux, vitamine D not metabolized,

water pills, water weight, Wegener's granulomatosis, Wilms' tumor, Wunderlich syndrome, X-linked recessive hypophosphataemic rickets, & nephrolithiasis with renal failure, Zonal NePhRO scoring system, Zuckerkindl's fascia,

In the Name and Blood of the Lord Jesus Christ, I bind up each and every demon left, I individually chain, cage, bag and box them. I put them in caves with rocks over the caves with the Light of the Lord shining bright and the angels of the Lord reading Scriptures and praise the Lord continually. I cover us all with the Blood of Jesus. I call upon God's Holy Spirit to fill everybody full to overflowing and to keep chasing out the demons and to restore God's people. In Jesus' Name, I loose legions of the spirits of the Lord, life, health, healing, restoration, wellbeing, sound mind, and a good night's sleep.

We thank You Lord Jesus for everything You have done. We give You all the glory and honour, and blessings and praise. In Jesus' Mighty Name and by His Blood. Amen.

**Pastor T. John Franklin
