

List of Liver Disorders Spirits for MD

A/G Ratio off, AST/ALT Ratio off, abdominal bloating, abdominal mass, abdominal pain, abnormal absorption of fats, abnormal liver enzyme tests, Abscess of liver, absent periods, accumulate of iron in body, accumulate of iron on liver, acetaminophen, acetylsalicylate, acute liver failures, Acute hepatic failure, Acute hepatitis A B C D E & X, Acute liver failure, adjuvant chemoradiation, Adverse drug reactions, Adverse medicine reactions, Adverse natural supplement reactions, affecting gene expression, Aflatoxin exposure, Alagille syndrome, alanine transaminase, albumin serum, alcohol abuse, alcohol addiction, alcohol overconsumption, Alcoholic cirrhosis, Alcoholic fatty liver, alcoholic fibrosis, Alcoholic hepatic failure, NOS, acute, chronic, subacute, with or without hepatic coma, Alcoholic hepatitis, Alcoholic liver diseases, alcoholic sclerosis of liveralcoholics, alcoholism, Alkaline phosphatase, alpha 1-antitrypsin deficiency, altering gene methylation, Alternative remedies, Alveolar hydatid disease, Amoebiasis, Amoebic Liver abscess, ampulla of Vater, Amyloid degeneration of liver, anaemia, anemia, anger, angiosarcoma, angry, antiviral drugs, apoptosis, Arthritis, asa, ascending cholangitis, Ascites, aspartate transaminase, aspirin, autoimmune disease of bile capillaries, autoimmune disorders, autoimmune hepatitis, autoimmunity, Aflavus toxin, A parasiticus,

Bacillary peliosis, back pain, bacterial degradation and precipitation of biliary lipids, bacterial degradation products of biliary lipids, Beckwith-Wiedemann Syndrome, benign adenomas, benign neoplasm, bile duct blockage, bile duct obstruction, bile duct tumor, biliary atresia, biliary catheter, biliary cirrhosis, biliary cyst, biliary drain, biliary dyskinesia, biliary fistula, biliary injury, biliary lipids, biliary reflux, biliary sludge of cholesterol, calcium bilirubinate, and mucin, biliary stent, biliary tract diseases, biliary tree disorders, bilirubin accumulates in blood, bilirubin encephalopathy, binge alcohol drinking, bitterness & roots of bitterness, black pigment gallstones, bland Cholestasis, blocked metabolic process, Blockage in bile duct, Blockage in biliary tree, blood letting, blood sugar problems, blood vessels tumor, body retains copper, body retains iron, Bonjela, brachy therapy, breathing problems, breathless, breathlessness, brown pigment gallstones, Budd-Chiari syndrome, build up of fat in liver cells, cancer cells spread to liver, cancer from mesenchyme

connective tissue, cancer in bile ducts, cancer secondary to alcohol, hepatitis B & C, cancers that can move to the liver, gastrointestinal tract, or colon cancer, carcinoid tumors from appendix, breast cancer, ovarian cancer, lung cancer, renal cancer, & prostate cancer, etc, carbohydrate antigen 19-9, & 125, carcinogens, carcinoembryonic antigen, carcinogenesis, carcinoid tumors, carcinosarcomas, cardiac sclerosis of liver, Caroli disease, cell death, cellulite, Chemical induced liver injury, central haemorrhagic necrosis, changes in bilirubin absorption, changes in heme metabolism, chemical-driven liver damage, chemical Tumor markers, chemicals from fungi Aspergillus flavus, chemotherapy drugs, childhood liver cancer, Chinese herbal remedies, Chlorophyllin, cholangiocarcinoma, cholangiocellular cystadenocarcinoma, cholangitis, cholangitis without liver abscess, cholecystectomy, cholecystitis, Cholecystolithiasis, Choledochal cysts, Choledocholithiasis, cholelithiasis, Cholestasis, Cholestasis with hepatocyte injury, cholestatic liver disease, cholesterol crystals, cholesterol gallstones, Cholesterolosis of gallbladder, Cholesterolosis of liver, cholestatic damage, Chronic active hepatitis, chronic alcohol toxicity, Chronic hepatic failure, Chronic hepatitis, chronic liver disease, Chronic lobular hepatitis, Chronic nonsuppurative destructive cholangitis, chronic passive congestion of liver, Chronic persistent hepatitis, cirrhosis, cirrhosis with toxic liver disease, cisplatin, clogged arteries to high blood pressure, co-infection of HBV & hepatitis D virus, coagulopathies, cholic, cholicy pain, coma, comatose, Common bile duct, confused, confusing, confusion, congenital cirrhosis, Congenital cystic disease, Congestive hepatopathy, constipated, constipation, Crigler-Najjar syndrome, cyanogincryosins, cryotherapy, cryptogenic Cirrhosis, cyclophosphamide, cystic disease of liver congenital, cysts, cytomegaloviral, cytomegalovirus infection, cytotoxic drugs, doxorubicin, or cisplatin with lipiodol,

damage to cellular mitochondria, damage to intra or extrahepatic biliary system, damage to liver, Defects in C-MOAT, deficit of fat soluble vitamins, definitive gallstones, depressed, depressing, depression, destabilize cholesterol carriers in bile, diabetes, Diet control, difficulty speaking, diffuse infiltration, digestive problems, direct damaged liver tissue, Diseases of liver, disorder of bilirubin metabolism, disorientation, disoriented, doxorubicin, drospirenone, Drug abuse, Drug addiction, drug & drug inter-reaction, Drug overdose, Drug poisoning, Drug-induced hepatic fibrosis, Drug-induced hepatic granuloma, Drug-induced hepatic necrosis, drug-induced hepatitis, drug-

induced hepatotoxicity, drug-induced liver disease, Drug-induced liver injury, drug-induced toxic liver disease, drugs side effects, drugs to bind copper to pass it in urine, dry eyes, dry mouth, Dubin-Johnson syndrome, ductal Cholestasis, dyspnoea,

Echinococcosis, Echinococcus, Effects of Acetaminophen, elevated liver enzymes, elevated LDL cholesterol, elevated triglycerides, elevations of unconjugated bilirubin, embryonal sarcoma, emesis, encephalitis, encephalopathy, End-stage liver disease, endoscopic retrograde cholangiopancreatography, enlarged liver, environmental chemicals, Epithelial-mesenchymal transition, Epstein-Barr virus infection, estrogen replacement therapy, Estrogens increase cholesterol secretion and diminish bile salt secretion, ethynodiol diacetate, excessive weight gain, extrahepatic bile duct, extreme tiredness, extreme weakness,

familial adenomatous polyposis, fatigue excessive tiredness, Fatty changes, Fatty degeneration, Fatty tumors, Fatty liver disease, fatty liver, feeling sick, Female sex hormones adversely influence hepatic bile secretion and gallbladder function, female sex hormones, fever, feverish, fibrosarcoma, Fibrosis & cirrhosis of liver, fibrous scar tissue around liver cells & blood vessel, Focal fatty liver, focal nodular hyperplasia, foggy brain, following labour & delivery liver disorders, Food contamination by fungi, form liver mass, fulminant hepatitis, fulminant liver failure,

gallbladder cancer, Gallbladder Disease During Pregnancy, gallbladder diseases, gallbladder disorders, gallbladder fistula, gallbladder hydrops, gallbladder stones, gallbladder motility changes, gallbladder obstructions, gallbladder perforation, gallbladder polyps, gallbladder removal, gallbladder strictures, gallstones, gallstones disease, gamma-glutamyl transferase, Gastric antral vascular ectasia, GB virus C, gemcitabine, genetic & epigenetic changes in liver cells with HCV & HBV infection, genetic disorder of bilirubin metabolism, genetic mutation, Gilbert's syndrome, globulin serum, Glucocorticoids, glycogen storage disease type 2, Granuloma, granulomatous hepatitis, green tea extract, guile,

Haemobilia, haemochromatosis, heart attack, heart disorders, hemangioendothelioma, hemangiosarcoma, Hemochromatosis, hemorrhoids, Hepatic abscess, Hepatic adenomas, Hepatic angiomas, Hepatic cancer, Hepatic cholangitic, Hepatic coma, Hepatic diseases, Hepatic

encephalopathy, Hepatic failure acute, or chronic due to drugs, hepatic failure complicating abortion, ectopic or molar pregnancy, hepatic failure complicating pregnancy, childbirth & the puerperium, Hepatic fibrosis, & with hepatic sclerosis, Hepatic granulomas in berylliosis, & sarcoidosis, Hepatic haematogenic, hepatic hemangiomas, Hepatic lymphogenic, Hepatic pylephlebitic, Hepatic sclerosis, Hepatic steatosis, hepatic toxicity, Hepatic vein thrombosis, Hepatic veno-occlusive disease, Hepatitis Autoimmunes in berylliosis, & sarcoidosis, hepatitis, acute, subacute, & viral, Hepato-biliary diseases, Hepatoblastoma, Hepatocellular carcinoma, hepatocytes become malignant, hepatogenous poisoning, Hepatolithiasis, hepatology, hepatoma, hepatomegaly, hepatoportoenterostomy, Hepatoptosis, Hepatopulmonary syndrome, hepatorenal syndrome, Hepatosplenic schistosomiasis, Hepatosplenomegaly, Hepatotoxicity, hepatotoxins, herbal remedies induced hepatotoxicity, Hereditary diseases, hereditary hemochromatosis, herpes simplex, herpesviral, High blood levels of alpha-fetoprotein, High fever, High grade dysplastic nodules, precancerous lesions of liver, hilar area cancer, Hormonal, Orally Administered Contraceptives effects, Human serum albumin, hydrazine derivative drugs, Hyperactive reflexes, Hypercholesterolemia, Hyperventilation, hypoalbuminemia, hypocholesterolemia, hypoglycaemia, icterus of fetus & newborn, icterus, & with toxic liver disease, idiosyncratic unpredictable liver disease, immature liver cells, immune cells out of order, immune disorders, immune system damages bile ducts, impairment of bile flow, inability to lose weight even while dieting, increased bilirubin concentrations, indigestion, infants with biliary atresia, Industrial toxin, infarction of liver, infectious diseases, inflamed liver, inflammation, inflammatory cells, inflammatory Cholestasis, inflammatory diseases, Inflammatory liver disease, injecting chemicals into liver like ethanol or acetic acid, injury to liver lobule, insolubility of biliary lipids, internal radiotherapy, intestinal bacterial degradation of bile salts, intolerance to alcohol, intolerance to fatty foods, intrahepatic cholangiocarcinoma, iron overload, intrinsic hepatotoxicity, irritable, irritability, Isoniazid, itching, itchy skin, jaundice, joint pain, Kawasaki disease, kernicterus, Kupffer cell sarcoma, Laennec's cirrhosis, laser treatments, leiomyosarcoma, leptospirosis, lethargic, lethargy, lifestyle changes, lipomas, liver abscess, liver cancer,

liver cell carcinoma, liver cell necrosis, & with hepatic failure, liver diseases, Liver disorders, liver dysfunction, liver failure, Liver fluke infection, Liver function tests, liver malignancies, liver metastases, liver necrosis, & with hepatic failure, liver roll, Liver transplantation, LiverTox, local chemotherapy, low birth weight, low LDL, & VLDL cholesterol, low levels of lipids, low total cholesterols, low triglycerides, lumps of fat in skin, lumpy liver, Lupoid hepatitis NEC, lymphomas, Lyngstadaas syndrome,

macronodular Cirrhosis, malabsorption of fats, male E D, malignant hepatitis, malignant neoplasm of biliary tract, malignant neoplasm of gallbladder, malignant neoplasm of liver, malignant tumors on surface, or inside liver, massive inflammation, medication side effects of beta-blockers, medicinal agents in overdoses, metabolic alterations in hepatic cholesterol secretion, Metabolic Disorders, metabolism problems, Metabolic syndromes, metabolites, metastases, metastatic malignant neoplasm, microcystins, micronodular Cirrhosis, migraine headaches, Milan criteria, Mirizzi's syndrome, mixed type Cirrhosis, mood changes, mood fluxuations, mood swings, moody, Murphy's sign, destroying angel mushrooms, muscle cancer in liver, muscle pain, muscle stiffness, muscle tremors, mutated transthyretin protein,

NAFLD, NASH, Natural products, nausea, nauseous, necine bases, necrosis, Neoplasm, Nightmares, non-alcoholic fatty liver disease, non-cirrhotic livers resectioning, Nonalcoholic steatohepatitis, non-predictable hepatotoxicity, Nonspecific reactive hepatitis, NSAIDS, Nonsteroidal anti-inflammatory drugs, norgestimate, norgestrel, not process fats, not process proteins, not regulate blood sugar, not regulate cholesterol levels, not remove toxins from blood, Nutmeg liver,

obese, obesity, obstruction, perforation, or fistula of biliary tract, occlusion of hepatic vein, oedema, oral contraceptive use, oral ketoconazole, organ failure, Other chronic hepatitis, overheating of face & torso,

pancreatic cancer, pancreatic disorders, Papillary stenosis, paracetamol, parasitic diseases, parity, partial thromboplastin time, passing bloody stools, PBC, Pediatric end-stage liver disease, pediatric liver diseases, peliosis hepatis, Percutaneous ablation, percutaneous transhepatic biliary drainage, percutaneous transhepatic cholangiography, permanent scarring of liver, pharmacological (type A) hepatotoxicity, phenylbutazone, Phlebitis of portal

vein, photodynamic therapy, platelet count off, Polycystic liver disease, poor concentration, Porcelain gallbladder, portal Cirrhosis, Portal hypertension, & in schistosomiasis, portal vein thrombosis, postcholecystectomy syndrome, postnecrotic, pot belly, precipitation of biliary lipids, precipitation of calcium bilirubinate, precipitation of cholesterol, Pressure inside biliary tree, primary biliary cirrhosis, primary liver cancer, Primary sclerosing cholangitis, progestin, progestins reduce bile salt secretion & impair gallbladder emptying, Progressive familial intrahepatic cholestasis, promoting, or repressing cellular signal transduction pathways, prothrombin time, protuberant abdomen, PSC, Pure cholestasis, pylephlebitic liver abscess, pylephlebitis, & without liver abscess, Pyogenic Liver abscess, Pyrrolizidine alkaloids,

radio frequency ablation, Radiotherapy, rare malignant tumor, reactive, nonspecific hepatitis, recurrence of liver cancer, recurrent headaches, Recurrent pyogenic cholangitis, reduced HDL cholesterol, reduced high density lipoprotein cholesterol, reflux, remove some iron laden blood, revenge, Reye's syndrome, revenge, rhabdomyosarcoma, Rokitansky-Aschoff sinuses, roll of fat around upper abdomen, Rotor's syndrome, rubella virus infection,

safe injection practice, salicylate, salicylic acid, sarcomas of liver, scarring in bile ducts, screening blood donation products, screening high risk asymptomatic individuals, Secondary biliary cirrhosis, secondary cancer to cirrhosis, secondary lesions that metastasized, secondary liver cancer, Secondary sclerosing cholangitis, serious chronic inflammatory disease of bile duct, serum proteins, severe itchiness, severe neurodegenerative effects, severe cardiopathic effects, severe disturbance of liver function, shrinking liver, shrunken liver, side effects of medicines, subliments, & drugs, etc, Simple cyst of liver, simple fatty liver steatosis, sluggish metabolism, small gallstones, smoking, Sorafenib, targeted therapy drug, spasm of sphincter of Oddi, Sphincter of Oddi dysfunction, Split varices, spontaneous bacterial peritonitis, Steatosis, steatohepatitis from obesity, steroid-based drugs, strokes, Stupor, subacute hepatic failure, subclinical injury to liver, superinfections, sweating, sweaty, swelling in legs, ankles, & feet, swollen liver, syasis, symptomatic gallstones, syphilis & Liver disease, Syphilitic liver disease, Systemic chemotherapeutics, systemic drugs,

targeted radiation to tumor, teratomas, toxemia, toxic agents, Toxic liver disease with chronic active, lobular, lupoid, & persistent hepatitis, Toxic liver disease with focal nodular hyperplasia, Toxic liver disease with hepatic granulomas, & necrosis, Toxic liver disease with hepatitis, Toxic liver disease with other disorders of liver, Toxic liver disease with peliosis hepatis, Toxic liver disease with veno-occlusive disease of liver, toxic liver disease, toxic liver disease with acute hepatitis, toxic liver disease cholestasis, fibrosis toxic liver disease cirrhosis of liver, toxic predictable liver disease, toxicity, toxins, toxoplasma, Toxoplasmosis, transarterial chemoembolization, transthyretin-related hereditary amyloidosis, Trichrome cirrhosis stain, Trisomy 18, tumors form in right lobe, Tumors of blood vessels, unconjugated bilirubin, unforgiveness & roots of unforgiveness, ursodeoxycholic acid, vaccinations against hepatitis B & C, vacuoles of triglyceride fat accumulate in liver cells, vanishing bile duct syndrome, varices, Vascular disorders, Vascular lesions, Vascular liver disease, venesection, vengeance, veno-occlusive disease, vincristine, Viral encephalitis, Viral hepatitises, viral infection hepatitis B or C virus causing cancer, viral replication, viral persistence, vomit blood, vomiting, weight loss, Wilson's disease, women's risk of gallbladder disease, Xanthogranulomatous cholecystitis, yellow fever virus infection, yellow liver atrophy, yellow liver dystrophy, yellowing of eyes & skin, yolk sac tumours, Zahn infarct, Zieve's syndrome, Zonal Necrosis,

In the Name and Blood of the Lord Jesus Christ, I bind up each and every demon left, I individually chain, cage, bag and box them. I put them in caves with rocks over the caves with the Light of the Lord shining bright and the angels of the Lord reading Scriptures and praise the Lord continually. I cover us all with the Blood of Jesus. I call upon God's Holy Spirit to fill everybody full to overflowing and to keep chasing out the demons and to restore God's people. In Jesus' Name, I loose legions of the spirits of the Lord, life, health, healing, restoration, wellbeing, sound mind, and a good night's sleep.

We thank You Lord Jesus for everything You have done. We give You all the glory and honour, and blessings and praise. In Jesus' Mighty Name and by His Blood. Amen.

**Pastor T. John Franklin
